

ESSENZA

Fall/Winter 2022

Our story

We are ESSENZA. Our desire is to inspire, stimulate and move you. We offer comfort to help you feel yourself at home and sleep better. Whoever or wherever you are, ESSENZA makes this possible. Show us who you are and what your style is. Be unique. Be yourself. Be ESSENZA. In our extensive home and interior collections, you will find everything you need to turn your home into a stylish, personal work of art; luxurious, elegant and exclusive.

We are constantly looking for innovation from all the things that makes life more beautiful. We are inspired by the people around us, by other cultures and traditions, by the colours, smells, and tastes that we experience, whether closer to home or from far away. Finally, we are also inspired by Mother Earth. Nature is an inexhaustible source of inspiration for us. In all her seasons she has so much beauty to offer. We mix and match all these new impressions, insights and ideas in our own studio, forming elegant, inspiring and expressive collections.

For more than 30 years we have been designing iconic home and interior collections with great care to create stylish looks with a unique twist. Whether you like rich floral prints, love checks and stripes or go for a simple uni bedding: at ESSENZA we have something beautiful for everyone.

At ESSENZA we believe in buying less, but better. That is why we produce high-quality, sustainable products that are our response to today's throwaway culture. We design and manufacture our collections with love, care and attention to both people and the environment. We do this because we believe it is extremely important that everyone has the chance to get a better night's sleep.

Let's start with a confession: I've got a love-hate relationship with the city. Oh yes, I adore my urban apartment and all the comfort of the city. Going for after work drinks just around the corner, heading to theater and cinema by bike, contemplatively strolling around the canals with a coffee to go in hand. But every so often, I'm finished with all the input and temptations. I want to go outside - into nature! My inner country girl takes over and I exchange the canals for a wander through the woods with my wellies on. I dream about a Victorian manor house with ornate wall paper and walled vegetable gardens. And then, after a day with my hands in the soil, I'll warm myself with a blanket next to a crackling wood fire. You get the picture. Yet not before long, and I'm yearning for the city again.

The best of both, if only that were possible. Well, I can tell you: with our fall/winter '22 collection you'll come a long way. With fabrics so soft and prints so rich that they'll give you that stately, nostalgic feeling. Both literally and figuratively speaking. Country and city. Jane Austen would die for these. And you'll understand it when you see the images in this collection book. The prints are both strong and gracious. You get a taste of the past, combined with a contemporary touch, which gives this collection a whole new energy. I'm incredibly proud of this fall/winter '22 collection titled The Fall Project. We have outdone ourselves once again. The prints are a mix of recognition and renewal. The combinations are daring, yet always elegant. I hope you'll be as much in awe as we are - if not more - when seeing (and feeling!) this collection. It makes my own heart beat a little faster either way.

Something else that makes my heart beat faster, is the five year anniversary of our bestseller print Fleur. For this special occasion, we gave it the beautiful colour blooming black and a celebratory name: Fleur Festive. For me personally, Fleur reflects everything that is ESSENZA. It's colourful, shiny, luxurious and recognisable. Just like our brand. During the last five years, ESSENZA has developed itself into a clear, premium brand with a strong signature. More and more people feel at home with ESSENZA. Because whether you love rich floral prints, adore stripes or checks or prefer a unicoloured duvet cover: we have it all. Different, yet unified. That's ESSENZA. That's us. That's you.

I wish you all a lovely endless and dreamy summer (and secretly I'm already excited about fall).

Lovely greetings,

Floor Smits
Head of Brands

Welcome to

The Fall Project

A shadow play created by the last rays of sunshine. Objects covered in soft moss. A crackling fire. Comfy with a capital C, without sacrificing style. This collection brings an English fairy tale to mind. Rich fabrics, warm, royal colours and luxurious prints that would fit right into a stately Victorian manor house. One of those where beauty and craftsmanship are at its core. The ESSENZA fall/winter '22 collection is a collection inspired by the past, given a contemporary feel. Romantic yet fierce at the same time. Waiting for the dark days, we get comfortable and cosy inside and surround ourselves with the finest bedding and the most gorgeous accessories. We escape the every day by choosing rich fabrics and luxurious prints that are sure to make an impression. Inspired by natural shapes and symmetrical, repeating patterns. Like always, with an eye for detail and of high quality, whilst being sustainable at the same time. That's what we find important. Therefore we proudly announce: You're cordially invited to The Fall Project.

This fall/winter '22 collection has partly drawn inspiration from the English Arts & Crafts movement: a movement in arts and industrial design during the late 19th Century. Designer William Morris was one of the main founders of this movement. He was of the opinion that products should not only be beautiful, but functional too. We fully embrace this philosophy.

Like usual, we divided our new bedding and accessoires collection into three themes. This season those themes are Lavish Affair, Modern Antiques and Majestic Bloom. We see nostalgic and outspoken prints, as well as warm and daring colour combinations executed on rich fabrics. It's a fairy tale like collection, with the famed ESSENZA stamp all over it.

Colour card

The general vibe of the autumn/winter '22 collection is ambitious and rich. The light shades make way for more endearing colours. This season we chose a warm, rich and royal colour palette.

In the first theme (Lavish Affair) it is yellow straw, bright terra, antique pink and purple breeze that bring a clear, optimistic note. Perfect to dispel any winter blues. Combined with the blue counterparts, night blue and boyish blue, it's a match made in heaven. These colour gradations go perfectly with our organic prints, but also work incredibly well in the rhythmic patterns.

We are continuing the neutral tones from spring/summer '22 into this autumn, but now with a fuller and warmer tone. Those are the browns from the second chapter (Modern Antiques): almost black, bronze brown, light leather and winter brown. The balanced tone-on-tone neutrals, faded white and beachwood white, exude tranquility and pair beautifully with the majestic and compelling dark tones.

In the third theme (Majestic Bloom), we see the colour comforting green - the name speaks for itself - that brings peace and comfort. Green is a colour that we still see a lot of; it provides familiarity and is a mirror of nature's strong resilience. Together with the shades of blue that enrich the palette, it's the most commercial colour palette.

Chapter 3: Majestic Bloom

Arts & Crafts

It's the fifth anniversary of our most popular and iconic design Fleur, so we repainted the flower print with liquid watercolour. This became design Flore, executed in two different colours. Another design that is based on the Fleur, albeit a bit harder to discover, is the Sol. For this print, all the colours from the Fleur were selected and rearranged in a wavy pattern. We then used the pinkish colour card of theme 1 and the green tint of theme 3 to recolour this pattern. When you look close enough, you can see the numerous thin stripes in the new Sol design. It gives subtle retro vibes, yet it's elegant and fierce at the same time.

Ophelia is the main print of this fall/winter '22 collection and has been inspired by the prints of William Morris and the Arts & Crafts movement. There's five designs in this collection that are part of the Ophelia family: Ophelia, Juliette, Amelie, Veron and Felipa. Ophelia shows an all-over repetition with big and small flowers and branches with leaves. Design Veron is the same design, but a hand

drawn version of Ophelia. Felipa comes in a jacquard weave and shows a smaller scale of Ophelia in one colour. Print Juliette consists of a branch of Ophelia and design Amelie features a big placed print made up from parts of Ophelia.

Teade is a hand drawn, contemporary version of the old fashioned check. When you look close up, you can see the depth and detail of the print.

Sustainable and comfortable

ESSENZA cares for our planet and chooses yet again to use sustainable materials. A number of duvet covers are made of GOTS certified cotton satin, Lyocell and bamboo viscose. The roll cushion, cushions and velvet plaids come in a new material: the front is made from 100% recycled polyester and the reverse is a mix of 70% recycled polyester and 30% polyester. The fillings are made from 100% polyester.

The Fall Project

We designed this fall/winter '22 home collection with care and love. And like always at ESSENZA, with fabrics that are truly soft, durable and comfortable. With a few delicate, refined details in the form of a chic piping. It has become a grand collection: lovely fabrics, rich prints and an overall luxurious finish and feel. To get a lovely night's sleep in and to surround yourself with in your home; products to feel ever more at home with.

Because feeling at home is something we find of great importance at ESSENZA. Whoever or wherever you are. Whatever your style may be. Whether you prefer bold prints or opt for a softer look. We can all agree on this one thing: home should be a place of comfort and cosiness. Feel free to make it special this season - we would love to help you! This season, we retreat back inside, towards the best version of ourselves. A lovely home is part of that. Rich, yet serene. Hopeful and ambitious. And a little eccentric at times. The Fall Project is coming.

Chapter 1:

Lavish Affair

We float on a pink cloud towards fall. With a touch of lilac, bright terra, lots of pink and here and there a contrasting counterpart like dark blue or pea green. Together, these colours bring the right dose of character. The prints are rich, floral and luxurious. It's definitely not for wallflowers. No, this chapter breathes allure and has got everything that makes our heart beat faster. The end of summer is near, romance is in the air. It's time for a Lavish Affair.

1.

PREMIUM

Noma thyme

50% cotton, 50% lyocell satin, 300TC, with piping

This gorgeous printed fabric with flowers and leafs was made at the end of the 19th Century. We found it in the archives of the Rijksmuseum and fell in love with the colours, mirror symmetries and the incredible detailing of the embroidery. We decided to turn it into a duvet cover which will, without a doubt, steal the show in every bedroom.

1. Julia earth pink cushion - 2. Teddy nightblue roll cushion - 3. Julia nightblue plaid/quilt

PREMIUM

Diem antique pink

100% cotton satin, 300TC, GOTS, with piping

Duvet cover Diem is a true show stopper. The print is so gorgeous, you just keep looking at it! The ferns and crane birds on the pink background make this print both magical and mysterious at the same time. On the reverse side of the cover you'll find small hand painted white flowers. Duvet cover Diem is also available in a night blue and pistache coloured version. Made from 100% GOTS certified cotton satin: sustainable, smooth, soft and super strong. A winner in every way.

PREMIUM

Minte purple breeze

100% cotton satin, enzymed washed, 300TC, double stitch seam

Mighty Minte! Once you slept under the Minte, you will never go back to something else. We totally get it: you've never felt something this soft, smooth and strong before. That's because this duvet cover is made from 300TC cotton satin. It comes in various colours, and purple breeze is the newest addition available from autumn/winter '22 onwards. Whichever colour you may choose, sweet dreams are guaranteed!

Ophelia nightblue

100% cotton satin

Oh, Ophelia! Who can resist this true showstopper? For the gorgeous print, inspiration was drawn from the Arts & Crafts movement, a movement of art and industrial design in the late 19th Century. This cotton satin duvet cover is lovely and soft with a slight sheen and comes in a night blue version, which makes the flower print subtly stand out. The reverse side of the duvet cover has the same night blue colour with a soft, graphic dot pattern.

1. Ophelia nightblue carpet

Juliette antique pink

100% cotton satin

The botanical print from Juliette consists of a branch out of print Ophelia, inspired by the prints from the Arts & Crafts movement. The soft green combined with the antique pink is, in our humble opinion, a match made in heaven. The reverse side of the duvet cover is a uni colour pink. You've never seen something this sweet and dreamy before. Anyone looking to give their bedroom a fresh and romantic update will easily achieve that with Juliette. Finish the look with a beautiful plaid and some pretty cushions and the transformation is complete!

Stach antique pink

100% cotton satin

Those who love graphical prints will surely fall in love with duvet cover Stach, made from lovely soft and shiny cotton satin. This duvet cover gives your bedroom an instant dose of colour, yet doing so without overpowering. The reverse features a subtle block pattern, so if you're in the mood for a toned down look, you can just turn the cover around! Whichever side you'll choose, we bet you'll have sweet, colourful dreams.

100% cotton satin

In honour of the five year anniversary of our bestseller print Fleur, we created a design with all the colours from the Fleur and rearranged those in a wavy pattern. And here you go, meet duvet cover Sol: isn't she pretty? When you look close up, you can see that design Sol consists of numerous thin stripes. It gives subtle retro vibes while being elegant and fierce at the same time. A magnificent statement for your bedroom. Available in a pink (antique pink) and a green (comforting green) version and made from lovely soft and slightly shiny cotton satin.

Flore yellow straw

100% cotton satin

Those that appreciate some retro vibes (because hey, that's going on a lot again), will pick duvet cover Flore. This duvet cover is made from 100% cotton satin which means it's soft, smooth and durable. Did you know this design is a spin off from our bestseller print Fleur? In honour of the five year anniversary of Fleur, we painted this print with liquid watercolour and placed it on a duvet cover. And for those who are opting for the complete look, there's matching home wear too.

Veron boyish blue

100% cotton (*renforcé*)

Duvet cover Veron shows a gorgeous hand painted version of print Ophelia. Made of 100% cotton, which is very soft to the touch, to achieve the right look: luxurious and cool, with a vintage touch. By choosing this quality of fabric, the print is extra emphasised and it makes this duvet cover literally into a dream for your bedroom. The reverse of the Veron is unicoloured deep purple blue, just like the pillowcases, so you can change things up when you'd like to.

Feda bright terra

100% cotton satin

It looks like someone has draped flower garlands on your bed with extreme precision. Well, isn't that a dream come true? With duvet cover Feda you'll step into a flower bed every night. Executed in chic night blue or the romantic colour bright terra and made from lovely soft and shiny cotton satin. Undoubtedly a favourite for orderly types, Feda is just as perfect for show-offs and romantics.

Chapter 2

Modern Antiques

This theme brings an English fairy tale to mind. Tranquil colours and earthy tones that make us all long for times past. With our eyes closed, we take a moment to step out of the daily reality and try to find support in the familiar. Comfortable and softening, yet anything but boring. While the days grow colder and seem to become shorter, we get comfortable inside. With chic prints in the most beautiful natural colours. They feel nearly vintage, yet become very contemporary with the right execution. This chapter, Modern Antiques, is timeless beauty.

In honour of the five year anniversary of our bestseller print Fleur, we created a design with all the colours from the Fleur and rearranged those in a wavy pattern. And here you go, meet duvet cover Sol: isn't she pretty? When you look close up, you can see that design Sol consists of numerous thin stripes. It gives subtle retro vibes while being elegant and fierce at the same time. A magnificent statement for your bedroom. Available in a green (comforting green) and a pink (antique pink) version and made from lovely soft and slightly shiny cotton satin.

Flore balsam

100% cotton satin

Those that appreciate some retro vibes (because hey, that's going on a lot again), will pick duvet cover Flore. This duvet cover is made from 100% cotton satin which means it's soft, smooth and durable. Did you know this design is a spin off from our bestseller print Fleur? In honour of the five year anniversary of Fleur, we painted this print with liquid watercolour and placed it on a duvet cover. And for those who are opting for the complete look, there's matching home wear too.

Teades nightblue

100% cotton satin

Bring on the winter season! Duvet cover Teade brings instant winter vibes to your bedroom. The print has been hand drawn and shows a modern take of the old check pattern. A pretty cool print at first glance, yet a closer look reveals the depth and detailing of the incredible check. Available in lovely soft and shiny cotton satin (Teades) and in super-soft cotton (Teade). The gorgeous night blue colour will surely bring abundant dreams. We are in awe! This winter will be a warm one for sure.

It's time to celebrate with Festive Fleur! In 2022, our bestseller print Fleur turns five years old and we decided to create a special anniversary edition. This overly chic black edition makes the colourful flower print shine like never before. Did you know the flowers are inspired by the still lifes of the Dutch Masters? Turn the duvet cover over for a more subtle look. The reverse side of this soft cotton satin duvet cover is black with a shadow play of flowers and has, due to the fabric, a gorgeous subtle shine to it. Sweet dreams guaranteed! A must for anyone who just can't get enough of flowers - or of pretty bedding.

Fleur

This is Fleur, one of ESSENZA's bestselling prints. And that's not surprising, because Fleur embodies everything that ESSENZA is; it has color, brilliance, richness, luxury and recognition. The design of the Fleur consists of 4 individual flower arrangements, which are composed of paintings in the Rijksmuseum. And by placing them on a different background, each cover actually has a different look. Made of wonderfully soft, slightly shiny and strong cotton satin. And it also sleeps wonderfully. Which one is your favourite?

Duvets and Pillows

New in our offer is a collection of Duvets and pillows, which we have developed with innovation and sustainability in mind. This allows us to offer the total picture in the bedroom; so we not only have the finest bedding, but also the filling thereof. The collection consists of five different Duvets and four Pillows. With every product we are innovative in the use of materials and sustainable in the use of recycled or sustainably produced materials. With the use of both natural and synthetically produced materials, there is something for every sleeper. The Duvet (and Pillow) of your dreams can now be found at ESSENZA.

General

- The cotton used for the bedding is sustainably grown.
- The packaging is made from 100% recycled material and can be recycled.
- All duvets are available in a summer version and in a variant for spring/autumn. These two can be joined together to create an extra thick duvet for the cold winter nights.
- ESSENZA duvets and pillows can be washed.

The Natural Wool

60% wool, 40% TENCEL™

This filling is unique, innovative and blends the best of two worlds: pure sheared wool from the Texel sheep is mixed with TENCEL®. This results in a duvet that is wonderfully supple and airy and has the right insulation for all seasons. Both sheared wool and TENCEL® are produced in a sustainable way and together create this delightful duvet. The summer part of The Natural Wool duvet is perhaps the best summer duvet you could wish for: perspiration is quickly absorbed. The cover is made from cotton satin and has a thread count of 298.

The Perfect Circle

Dacron®Eco (100% polyester hollow fibre RPET)

This 100% synthetic duvet and pillow are made from the 100% recycled material, PET. This high-quality polyester material can be recycled time and time again. Just like this duvet. Are you working towards a circular economy? Then The Perfect Circle is a step in the right direction! The outside is made from a premium quality microfibre: beautifully softened and with a peach finish. For an extra special touch, the Aurelie design is subtly printed in the fabric. The bedding has also been treated against dust mites.

The Recycled Down

70% recycled down, 30% recycled feathers

The down used for The Recycled Down has already had a very 'rewarding life'- but can last for many more years to come. The down from old, used duvets is collected and professionally washed. The best quality down is then selected to create The Recycled Down. The outside is made from high-quality cotton percale and has a thread count of 233.

The Down Alternative

Ecodown (100% polyester hollow microfibre)

Do you want the comfort of down but the practical properties of synthetic? The Down Alternative is the best solution. The synthetic filling is made from 100% recycled polyester, which makes this duvet and pillow wonderfully soft, full and airy. The cotton fabric has a thread count of 233 and is treated against dust mites.

Accessories

Accessories are the finishing touch when it comes to styling any interior! Add a couple of cushions, a snug plaid, an eye-catching carpet or velvety pouffe all to create a cohesive and warm interior with a personal touch. There's one thing all our accessories have in common, no matter which colour, fabric or print you'll choose: they are extremely soft!

Size chart

What size of fitted sheet and duvet cover do you need? This table lets you see the common sizes of the fitted sheets and duvet covers for every bed or mattress size. Please note that these are the most logical sizes, but it can of course be that someone has a relatively narrow or wide duvet on their bed. Therefore, always refer to the size of the duvet. If the customer does not know this then ask to which extent the duvet drapes over the sides of the bed. From this you should be able to deduce what size of duvet cover the customer requires.

All our duvet covers have an extra-long length of 260 cm, this includes a tuck-in strip of 40 cm. This extra-long length means they are suitable for almost every kind of duvet and mattress and they can even be used for a box spring with extra thick mattress.

DESIGNING YOUR WORLD TESSA

All about the fabrics

Most of our duvet covers are made from cotton - and for a good reason. This natural material is perfect for sleeping both on and underneath. The fabric is soft and supple, breathes well and is moisture-absorbent. Moreover, cotton is strong and durable, so you can enjoy your bedding for years to come.

The way the cotton is woven varies according to quality. Cotton *renforcé* and *percale* are woven differently than cotton satin. Two different sets of yarns or threads are crossed over each other to create a weave. The vertical thread is the 'warp' and the horizontal thread that is woven through is the 'weft'. The way in which the threads cross each other determines the weave and therefore the quality of the fabric. For our duvet covers we use plain weave and satin weave.

FLAT WEAVE

The flat weave is the simplest weave and is used for fabrics such as cotton *renforcé*, *percale* and cotton flannel. With a flat weave, the horizontal thread always goes once over and then once under the vertical thread.

Cotton Renforcé

Renforcé comes from the French word for "strengthen". Cotton *renforcé* means "reinforced and strengthened cotton".

Cotton Percale

The difference between cotton *renforcé* and *percale* is the number of threads (thread count) used. *Percale* has a higher thread count and finer yarn and therefore feels softer, smoother and more pleasant.

Cotton Flannel

With cotton flannel, the woven fabric is gently roughened, making it feel soft, woolly and wonderfully thick. Ideal for the winter!

SATIN WEAVE

The satin weave is different from the flat weave because the horizontal thread passes at least once under and 4 times over the vertical thread. This creates the shiny and soft feeling of cotton satin.

Cotton Satin

Satin says nothing about the material, but instead tells us about the weave. Cotton satin is made from 100% natural cotton and therefore has all the wonderful properties of cotton: it breathes well and is moisture-absorbent. Our favourite fabric for bedding! The thread count is usually between 200 and 220. Our premium duvet covers have an extra high quality of 300 TC. The fabric is woven with 300 threads per inch, which ensures even more shine, softness and suppleness.

Cotton Jersey

Jersey fabrics are not woven but knitted. The quality is expressed in weight instead of thread count. Because jersey is knitted, it has a light stretch that feels very comfortable. Jersey is slightly thicker than cotton *percale* or satin, which makes it perfect for the autumn season.

Organic Cotton

An increasing part of our collection is made from organic cotton. We opted here for GOTS certified cotton. The international GOTS (Global Organic Textile Standard) certificate doesn't only guarantee that the cotton has been organically grown, but also that manufacturing takes place in an environmentally and socially responsible manner. We all get a better night's sleep out of that! Read more about GOTS on page 218.

Bamboo Viscose

New in the ESSENZA collection is the fabric bamboo viscose. Bamboo particles are processed into a fine textile fibre by means of a viscose production process. Bamboo fabric feels very soft and can perfectly regulate heat and absorb moisture. It is therefore lovely and cool in the summer and warm in the winter. Bamboo is the fastest growing plant in the world and does not require manure, pesticide or other chemicals to grow, unlike cotton.

Jacquard

Jacquard is a weaving technique that allows us to weave the most intricate patterns into a fabric. The deliberate skipping of specific warp threads creates beautiful woven designs with a light and dark contrast. This is clearly visible when you move the fabric. Jacquard can be applied to both cotton satin and bamboo viscose.

Lyocell

Lyocell is usually made from fast-growing eucalyptus trees, although oaks and birches are also used. After harvest, the wood is cut into small pieces, ground into pulp, and then dissolved using the substance amine oxide. What remains is raw cellulose, which is then filtered, after which white lyocell fibres are created and are spun into yarn and eventually woven into fabric. It is a durable fabric using fast-growing trees that grow well even on already depleted soil, without irrigation and virtually no pesticides. No toxic chemicals are used in production and 99.5% of the solvents can be reused. Less water is used in production and the breathable quality of the fabric ensures that you do not have to wash it as often.

Sustainability

Sustainability is a big theme at ESSENZA. We cannot- and do not want to – ignore this in today’s world. It is not only an important point for us and for the environment, but also for all future generations. This is why we work and produce with as much care and attention as possible for people, the environment and society. We are continuously working to make our organisation – and in particular, our development and production process – more sustainable and to take our social responsibility to all links in the chain.

Joining Forces

In order to further make the entire textile industry more sustainable, it is essential that we join forces. This is why we signed the 5-year Dutch Covenant for Sustainable Clothing and Textiles in 2016. With this we are part of more than 90 brands and retailers. We work together with the Dutch government, trade unions, trade associations and civil society organisations on the problems faced by the textile industry and inspire each other to continue to become more sustainable. Corporate social responsibility is at the top of our agenda. We are closely monitoring developments and are continuously working on the next steps we can take to become even more sustainable. We will hopefully re-enter into the covenant this year.

As we are also active in Germany, we joined the German equivalent of this covenant, the Bündnis für Nachhaltigen Textilien in 2019. This means, we can also join forces in Germany with the government and partners in the textile industry, so we can work together to continue to make the textile industry more sustainable.

Transparency in the Chain

To gain insight into the work of our suppliers, we have been a member of Amfori BSCI since 2019. This gives us a better insight into our entire production chain and allows us to work more specifically with any weak spots at our suppliers. In addition, in February 2021 we also signed the Transparency Pledge, so that everyone can view our production chain. We do this because we want to take responsibility for our chain and it helps us to address potential risks, in cooperation with partners using the same supplier.

Textiles that make you Feel Good

All our products are made to relax in or under. It is therefore extra important that they feel great on the skin and are free of harmful substances. Our fabrics are therefore Oeko-Tex certified or meet the REACH requirements. These are important health labels for products. This way we can be sure that they are free of harmful substances that pose a risk to health. Peace of mind!

Sustainable Fabrics

An increasing part of the collection is made from GOTS-certified cotton. The international GOTS (Global Organic Textile Standard) certificate not only guarantees the use of organically grown cotton, but also that production is carried out in an environmentally friendly and socially responsible manner. So, we can all sleep better.

GOTS imposes requirements on factories regarding the use of harmful chemicals and the consumption of water and energy. GOTS also includes criteria for working conditions during production. These are based on the standards of the International Labour Organisation, such as the right to trade union freedom, fair wages and the right to safe and healthy working conditions. Compliance with GOTS requirements is monitored by independent, accredited organisations.

Inspire and Inform

We think it is important to inform and inspire our customers as well. Not only with beautiful products for the home, but also with our vision on sustainability. For example, from this autumn, our ESSENZA duvet covers have renewed wax instruction cards that give the customer inspiration and information to keep our textiles beautiful for as long as possible, while having as little impact on the environment as they can. You can also read about our sustainable inspiration on our website. The cards are of course printed on FSC®-certified paper.

Sleeping Well

At ESSENZA we want everyone to get a good night's sleep. Not just the people at home, with the help of our wonderfully soft bedding and gorgeous pyjamas, but also the people who work at our office and in our production chain. Then also, all our retailers and the people who are on the shop floor. Anyone who is connected or affiliated with ESSENZA. You can only sleep well if we produce in a sustainable way with an eye for people and the environment. We are therefore working hard to create a fair and sustainable future.

PVC-free packaging

Our packaging has also been reinvented. At ESSENZA we are well on our way to making all our packaging 100% PVC-free. PVC is not recyclable and can contain harmful substances. Almost all duvet covers from the new spring/summer '22 collection are packaged in a fabric bag with a paper sleeve around it. The fabric bag can be reused for all kinds of purposes that the customer can decide for themselves, great for the environment and great for the customer! On our website we share some lovely ideas to help the customer get started.

To prevent the products from being damaged during transport or in a warehouse, we still envelop them in a recyclable, PVC-free plastic bag. These are removed before they are presented in the store. Only our flannel duvet covers come in PVC-free plastic packaging.

Essenza's premium and GOTS-certified duvet covers come in a luxury storage box made from FSC®-certified cardboard. On the back of the box, we give more information about the meaning and benefits of GOTS certified cotton.
