

ESSENZA & CO
ESSENZA & CO

DREAM WITH US IN FULL COLOUR

SPRING / SUMMER
COLLECTION 2024

HERE'S TO A WORLD AS COLOURFUL AS OUR SHEETS

ESSENZA & CO is committed to making a positive impact on the world. Our mission is to provide comfortable bedding with personality.

We dare to clash in full colour and design with respect for traditions. With our reversible covers, we invite you to explore endless possibilities and unleash your imagination.

Our high-quality products are made to last and delight the young and the young at heart alike. Join us in dreaming of a colourful world.

DESIGNED TO LAST

THERE IS NO SUCH THING AS SUSTAINABLE BEDDING

Producing new products will always have an impact on the world and can never be fully sustainable. That's why we've made it our mission to produce our bedding as sustainably as possible and to create products designed to last a lifetime. We're constantly looking for innovative and more sustainable materials. In doing so, we only cooperate with people, factories and companies that share our desire to improve our production together.

WE SEE FUTURE IN RECYCLED, RECYCLABLE AND ORGANIC MATERIALS.

By using 100% GOTS-certified cotton, we're adhering to strict guidelines that protect both people and the environment throughout the entire production process. Also, combinations of more sustainable and recycled materials allow us to reduce our impact on the environment and help contribute to our mission.

We value an honest story from design to product and beyond, ensuring that every step of the process is traceable for everyone.

100% GOTS-CERTIFIED ORGANIC COTTON

The international GOTS certificate guarantees the use of organically grown cotton, but also that the production is carried out in an environmentally and socially responsible way. Thus, the people who grew this cotton are treated fairly and paid a living wage.

GRS-CERTIFICATE

The Global Recycled Standard (GRS) is a voluntary product standard for tracking and verifying the content of recycled materials in a final product. The standard applies to the full supply chain and addresses traceability, environmental principles, social requirements, chemical content, and labeling. A product needs to contain at least 50% recycled materials in order to require a consumer-facing labelling.

RECYCLED COTTON

Recycled cotton is made from old clothes, textiles and cutting waste from factories. The collected cotton is first sorted by colour and then ground into small pieces. The fibres are then taken apart to be re-spun into yarn. As recycled cotton is often already dyed and selected by colour, it doesn't always have to be dyed again. Recycled cotton is often blended with new cotton to ensure its quality.

RECYCLED POLYESTER

Recycled polyester is made from used polyester such as PET bottles. These are made into balls from which small pellets are produced. The pellets are broken down into polymers, which, in turn, are made into polyester chips. These chips can then be melted and woven into fibres to make fabric. The addition of recycled polyester provides extra softness and strength, making the fabric last longer.

SPRING / SUMMER '24 COLLEC TION

FOR THE YOUNG, AND THE YOUNG AT HEART ALIKE

Bold, playful and colourful. The SS'24 ESSENZA & CO collection presents colourful, hand-drawn prints from our own design studio. The design team took inspiration from classic patterns, contemporary materials and fresh colour schemes. The art and nature inspired designs are abstracted and are given a modern look by enlarging prints or by placing them very subtly on the textiles.

A collection that invites you to create unexpected combinations in patterns, colours and materials. The two unique sides of each duvet cover instantly give any bedroom a new look.

100% ORGANIC COTTON

PETITE BERRY

LEMON YELLOW

A watercolour of hand-painted branches with leaves and berries. The small berries contrast freshly with the overall composition. The other side features a playful hand-painted stripe. This stripe shares the same colour accent as the berries, creating an unexpectedly perfect match between these two prints.

This duvet cover is made of 100% GOTS-certified organic cotton percale, a luxurious fabric with a crispy look & feel. It is soft to the touch, breathable and therefore a year-round favourite.

The international GOTS certificate guarantees the use of organically grown cotton, but also that the production is carried out in an environmentally and socially responsible way. Thus, the people who grew this cotton are treated fairly and paid a living wage.

ZESTY CHERRY

ICE BLUE

This print showcases hand-painted summer fruit in vibrant colours. One side features a repeat of cherries, while the other side provides a fresh contrast with a repeat of various lemons.

This duvet cover is made of 100% GOTS-certified organic cotton percale, a luxurious fabric with a crispy look & feel. It is soft to the touch, breathable and therefore a year-round favourite.

The international GOTS certificate guarantees the use of organically grown cotton, but also that the production is carried out in an environmentally and socially responsible way. Thus, the people who grew this cotton are treated fairly and paid a living wage.

100% ORGANIC COTTON

FLOWER FLING

BRIGHT WHITE

A multicolour print featuring large hand-drawn dahlias in various soft shades of purple, orange, yellow, pink and green. The petals of the flowers contain a subtle colour gradient. The other side shows the same flowers in a scaled-down version, creating a playful effect when you turn the duvet cover over.

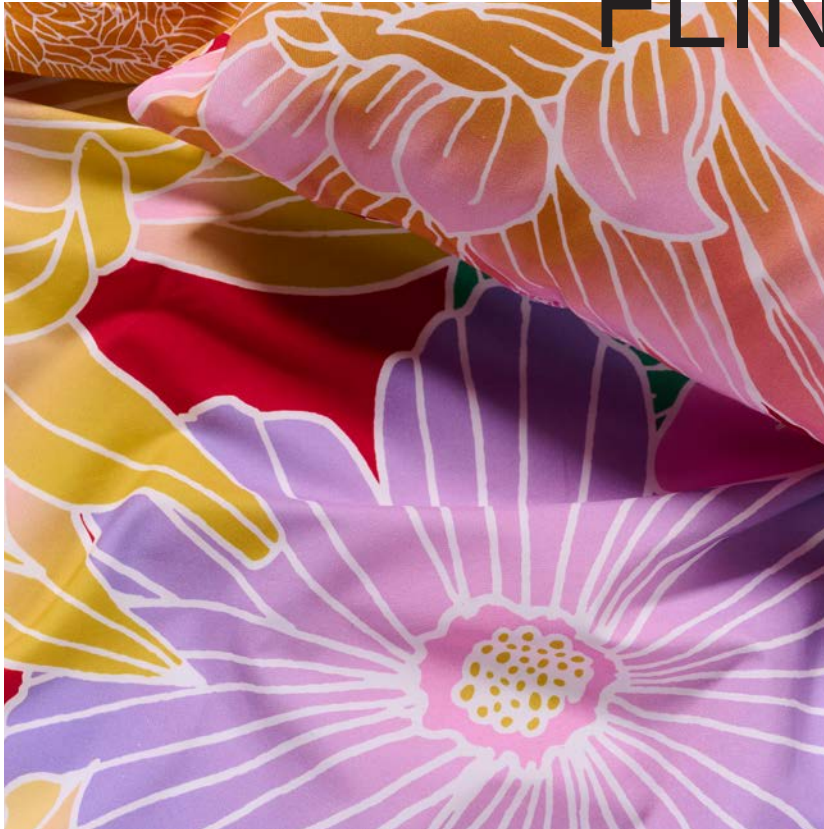

This duvet cover is made of 100% GOTS-certified organic cotton percale, a luxurious fabric with a crispy look & feel. It is soft to the touch, breathable and therefore a year-round favourite.

The international GOTS certificate guarantees the use of organically grown cotton, but also that the production is carried out in an environmentally and socially responsible way. Thus, the people who grew this cotton are treated fairly and paid a living wage.

FLOWER FLING

HAPPY RED

A multicolour print featuring large hand-drawn dahlias in various soft shades of purple, orange, yellow, pink and green. The petals of the flowers contain a subtle colour gradient. The other side shows the same flowers in a scaled-down version, creating a playful effect when you turn the duvet cover over.

This duvet cover is made of 100% GOTS-certified organic cotton percale, a luxurious fabric with a crispy look & feel. It is soft to the touch, breathable and therefore a year-round favourite.

The international GOTS certificate guarantees the use of organically grown cotton, but also that the production is carried out in an environmentally and socially responsible way. Thus, the people who grew this cotton are treated fairly and paid a living wage.

BLOOM WITH A VIEW

MISTY GREEN

The roses in full bloom are from 'Franse roos' (Rosa gallica L. 'Versicolor') by Pieter Withoos, from c. 1686 - c. 1692. The print gets a modern twist as this realistic rose with branches and leaves is placed on a uni-coloured background. This modern twist is enhanced by a silhouette print of the branches and leaves in two-colour on the other side.

This duvet cover is made of 100% GOTS-certified organic cotton percale, a luxurious fabric with a crispy look & feel. It is soft to the touch, breathable and therefore a year-round favourite.

The international GOTS certificate guarantees the use of organically grown cotton, but also that the production is carried out in an environmentally and socially responsible way. Thus, the people who grew this cotton are treated fairly and paid a living wage.

100% ORGANIC COTTON

65% COTTON, 35% RECYCLED COTTON MUSLIN

LILY MELODY

TOFU TAUPE

From 'tafelkleed in tapisserie-weefsel met in het midden gestrooide bloemen,' a unique textile piece from 1650 from the Rijksmuseum, a 'lily of the valley' was selected for this print. The playful and repetitive placement of the lilies in a fresh two-tone colour creates a romantic, charming print.

This muslin duvet cover is made from 65% cotton and 35% recycled cotton. Muslin is an extremely soft, breathable fabric that acquires a unique airy texture through double weaving. It is easy to use and does not need to be ironed, as this is when the texture of this quick-drying material comes out best.

The recycled cotton is made from old clothes, textiles and cutting waste from factories. The collected cotton is first sorted by colour and then ground into small pieces. The fibres are then taken apart to be re-spun into yarn. To ensure quality and make the material stronger, the recycled cotton is mixed with new cotton.

50% COTTON, 30% RECYCLED COTTON, 20% RECYCLED POLYESTER

PIED DE COOL

BLACK

A fine, yarn dyed pied de poules in a two-tone. The other side shows the same pied de poules in a slightly contrasting two-tone that creates a playful look when turned over.

This duvet cover is made from a GRS-certified mixture of 50% cotton, 30% recycled cotton and 20% recycled polyester resulting in a soft yarn dyed duvet cover that is supple to the touch. The recycled cotton is made from old clothes, textiles and cutting waste from factories. By adding new cotton as well as recycled polyester, the material becomes extra soft and strong, extending the longevity of the blend.

The GRS-certificate (Global Recycled Standard) is a voluntary product standard for tracking and verifying the content of recycled materials in a final product. The standard applies to the full supply chain and addresses traceability, environmental principles, social requirements, chemical content, and labeling. A product needs to contain at least 50% recycled materials in order to require a consumer-facing labelling.
